High Tech Pur

PVM EVO '03 rear brake disc

Attractive, light and functional are attributes that were included in the design specifications of this floating rear brake disc. In our opinion we have fulfilled these requirements and have developed an excellent functional, light and attractive rear brake disc. Extreme braking is easy with this brake disc made from heat-treatable steel. This disc is available for PVM piston brakes as well as for virtually all conventional sport motorcycles.

Technical Specifications

- Outer ring made from heat-treatable steel available in the diameters 220 or 230 mm
- Centers made from strengthened aluminium
- Mounting: 6 x M8 to a bore circle \varnothing 80mm
